

Alani Nu Energy Drink

Review

By: Erin Sweeney

Some mornings all of us need a kick, and an energy drink is the perfect solution. But what is the best energy drink on the market. Common ones include Monster Energy and Celcius, but for the past few weeks, I have been testing out Alani Nu energy drinks. So far, the only ones I've tried are Cherry Slush, Cosmic Stardust and my favorite, Hawaiian Shaved Ice. Overall, all flavors are really good, but they are also really sweet. So if you have a sweet tooth these energy drinks are perfect for you.
